NET WEIGHT 40 lb (18.14 kg)

Earthgro®
The Natural Choice

DEHYDRATED MANURE AND ORGANIC HUMUS*

1-1-1

GARDENING THE NATURAL WAY!

As our name implies, Earthgro products are designed to help home gardeners grow beautiful, award-winning plants in an environmentally sound way. All of our soil and soil conditioner products are made from natural materials that have been blended to enhance the condition of the soil. Used as directed they provide the best possible environment for development of sturdy, vigorous plants, both under ground and above ground.

Earthgro DEHYDRATED MANURE AND ORGANIC HUMUS*

This product is blended exclusively as a soil conditioner. It is to be mixed with soil as directed below. Do not sow seeds or set plants directly into this material without mixing it with soil as directed.

Guaranteed Analysis

Total nitrogen (N).....	1.0%
0.40% other water soluble nitrogen	
0.60% water insoluble nitrogen	
Available phosphate (P ₂ O ₅).....	1.0%
Soluble potash (K ₂ O).....	1.0%
Nutrients derived from manure.	

Ingredients: Contains not less than 51% manure and not greater than 49% organic humus.*

*Organic humus: derived from peat, compost, forest products, manure, and/or other organic materials.

DIRECTIONS FOR USE

We recommend wearing gardening gloves when using this and other planting materials.

VEGETABLE AND FLOWER GARDENS

1. First weed garden beds. Then, turn over top 2" - 4" with a shovel.
2. Before planting, spread Earthgro® Dehydrated Manure and Organic Humus* at the rate of 2 bags per 10 square feet of garden area (equal to a depth of about 2 inches).
3. Thoroughly work it into the top 4 to 6 inches of soil.
4. Feed with a quality plant food, such as Miracle-Gro® All-Purpose Plant Food, immediately after planting.

SHRUBS, ROSES, AND SMALL TREES

1. Dig a hole at least 4 inches wider than the root ball on all sides.
2. Mix 1 part Earthgro Dehydrated Manure and Organic Humus* with 2 parts of existing soil. Remove enough of the new mix so that the top of the ball is flush with the surface of hole. Backfill around the sides of the new plant in its hole.
3. Water thoroughly as the modified soil is added around the plant.
4. Feed with a quality plant food, such as Miracle-Gro® All-Purpose Plant Food, immediately after planting.

BULBS

1. Dig hole or trench as appropriate.
2. Place a 2" - 3" layer of Earthgro Dehydrated Manure and Organic Humus* on the bottom and mix thoroughly with loose soil.
3. Remove enough soil to plant bulbs, then cover bulbs up.

SOIL MODIFICATION FOR NEW LAWNS

1. Apply Earthgro Dehydrated Manure and Organic Humus* at the rate of 1 bag per 10 square feet (a depth of approximately 1 inch) and work into the top 3 to 4 inches of soil.
2. Apply a high-nitrogen/high-phosphorus fertilizer, such as Scotts Starter® Fertilizer, to the soil surface.
3. Spread a good-quality lawn seed evenly over the area. (Consult your dealer for the seed mixture best suited to your needs.)
4. Lightly drag the surface with a leaf rake to incorporate the seed to a very shallow depth (1/8 to 1/4 inch).
5. **VERY IMPORTANT:** Irrigate as needed to keep area constantly moist until seedlings are established.

TOPDRESSING FOR ESTABLISHED LAWNS

1. Apply Earthgro Dehydrated Manure and Organic Humus* at the rate of 2 bags per 100 square feet (a depth of approximately 1/4 inch).
2. Drag or rake it into the turf.
3. For best results, augment topdressing with a complete lawn fertilization program, such as Scotts Turf Builder®.

Earthgro® GUARANTEE

If you are not fully satisfied with the results from using this product, we will refund your purchase price. Send evidence of your purchase to: Earthgro, Inc., Marysville, OH 43041.

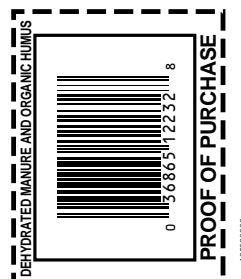

DISCLAIMER AND LIMITATION OF LIABILITY:

No warranty or representation is made, express or implied, concerning the results to be obtained from the use of this product if not used in accordance with directions or established safe practices.
